Forest Ecology and Management 88 (1996) 297–298

Forest Ecology and Management

Contents of *Forest Ecology and Management*, Volume 88

VOL. 88, NOS. 1–2 1 NOVEMBER 1996

Special Issue: Ungulates in temperate forest ecosystems

Preface

Ungulates in temperate forest ecosystems
A.T. Kuiters, G.M.J. Mohren and S.E. Van Wieren (Wageningen, The Netherlands) 1

Habitat use and population dynamics

The population modelling of fallow deer and wild boar in a Mediterranean ecosystem
S. Focardi, S. Toso and E. Pecchioli (Ozzano dell' Emilia, Italy) 7

Trophic utilization of a montane/subalpine forest by chamois (*Rupicapra pyrenaica*) in the Central Pyrenees
R. Garcia-Gonzalez and P. Cuartas (Jaca, Spain) 15

Habitat use in a *Rupicapra pyrenaica pyrenaica* forest population **(short communication)**
J. Herrero, I. Garin, A. García-Serrano and R. García-González (Jaca, Spain) 25

Changes in roe deer (*Capreolus capreolus* L.) population density in response to forest habitat succession
R.M.A. Gill (Wrecclesham, UK), A.L. Johnson, A. Francis (Dorset, UK), K. Hiscocks (Durban, South Africa) and A.J. Peace (Wrecclesham, UK) 31

Impacts on forest development

Impact of ungulates on structure and dynamics of natural regeneration of mixed mountain forests in the Bavarian Alps
C. Ammer (Freising, Germany) 43

Growth and development of silver birch, pedunculate oak and beech as affected by deer browsing
A.F.M. Van Hees, A.T. Kuiters and P.A. Slim (Wageningen, The Netherlands) 55

Grazing effects of ungulates in a Galician oak forest (northwest Spain)
M.P. González Hernández and Fco.J. Silva-Pando (Pontevedra, Spain) 65

Wild boar (*Sus scrofa scrofa* L.) rooting and forest regeneration on podzolic soils in the Netherlands
G.W.T.A. Groot Bruinderink and E. Hazebroek (Wageningen, The Netherlands) 71

Fraying damages in the subalpine forest of Paneveggio (Trento, Italy): a dendroecological approach **(short communication)**
R. Motta (Grugliasco, Italy) and P. Nola (Pavia, Italy) 81

Assessment of tolerable browsing by Eiberle's method: Limitations and future prospects
R. Berwert-Lopes (Zürich, Switzerland) 87

Impact of wild ungulates on forest regeneration and tree composition of mountain forests in the Western Italian Alps **(short communication)**
R. Motta (Grugliasco, Italy) 93

Effects of season and intensity of sheep grazing on tree regeneration in a British upland woodland
A.J. Hester, F.J.G. Mitchell (Aberdeen, UK) and K.J. Kirby (Peterborough, UK) 99

Impact of ungulates on forest vegetation and its dependence on the silvicultural system
F. Reimoser (Vienna, Austria) and H. Gossow (Wien, Austria) 107

Foraging ecology

Feeding behaviour of red deer (*Cervus elaphus*) on Sitka spruce (*Picea sitchensis*): the role of carbon-nutrient balance
G.R. Iason, A.J. Duncan (Aberdeen, UK), S.E. Hartley and B.W. Staines (Banchory, UK) 121

The effects of cattle grazing on optimal foraging in mule deer (*Odocoileus hemionus*)
J.G. Kie (Fresno, CA, USA) 131

Elsevier Science B.V.

Dietary overlap of three ungulate species in the Palava Biosphere Reserve **(short communication)**
M. Heroldová (Květná, Czech Republic) 139
Quantification of herb layer dynamics under tree canopy **(short communication)**
G.J. Nabuurs (Wageningen, Netherlands) 143
Do large herbivores select a diet that maximizes short-term energy intake rate?
S.E. van Wieren (Wageningen, The Netherlands) 149

Modelling forest-herbivore interactions
Modelling habitat suitability for black-tailed deer (*Odocoileus hemionus columbianus*) in heterogeneous landscapes
B.B. Boroski (Fresno, CA, USA), R.H. Barrett, I.C. Timossi (Berkeley, CA, USA) and J.G. Kie (Fresno, CA, USA) 157
Effects of resource distribution patterns on ungulate foraging behaviour: a modelling approach
M.F. WallisDeVries (Wageningen, The Netherlands) 167

Ungulates and forest management
Moose browsing in young Scots pine stands in relation to forest management
R. Heikkilä and S. Härkönen (Vantaa, Finland) 179
Progress in predictive management of deer populations in British woodlands
B.A. Mayle (Farnham, UK) 187
Potential role of deer (Cervidae) as ecological indicators of forest management
T.A. Hanley (Juneau, AK, USA) 199

Summary
Ungulates in temperate forest ecosystems: perspectives and recommendations for future research
R.J. Putman (Southampton, UK) 205

VOL. 88, NO. 3 **15 NOVEMBER 1996**

Biomass relationships for tree species in regenerating semi-deciduous tropical moist forest in Cameroon
J.D. Deans (Penicuik, UK), J. Moran and J. Grace (Edinburgh, UK) 215
Interference of bracken (*Pteridium aquilinum* L. Kuhn) with Scots pine (*Pinus sylvestris* L.) and Norway spruce (*Picea abies* L. Karst.) seedling establishment
A.H.U. Dolling (Umeå, Sweden) 227
Examining age- and altitude-related variation in tree architecture and needle efficiency in Norway spruce using trend surface analysis
T. Kuuluvainen (Helsinki, Finland) and D.G. Sprugel (Seattle, WA, USA) 237
Screening of antagonistic fungi against air-borne infection by *Heterobasidion annosum* on Norway spruce
G. Nicolotti (Grugliasco, Italy) and G.C. Varese (Torino, Italy) 249
Herb layer vegetation of south Swedish beech and oak forests—effects of management and soil acidity during one decade
J. Brunet, U. Falkengren-Grerup and G. Tyler (Lund, Sweden) 259
The impact of disturbance on detrital dynamics and soil microbial biomass of a *Pinus kesiya* forest in north-east India
A. Arunachalam, K. Maithani, H.N. Pandey and R.S. Tripathi (Shillong, India) 273
Conservation and use of the *Pinus chiapensis* genetic resource in Colombia
J.A. Wright, A.M. Marin V. (Cali, Colombia) and W.S. Dvorak (Raleigh, NC, USA) 283
Wood production in a natural stand of *Acacia karroo* in Zimbabwe
I.D. Gourlay, J.P. Smith and R.D. Barnes (Oxford, UK) 289
